

# DISCOVER THE NEW H-1B STANDARD WITH ENVOY

**Envoy removes complication, tedium and inefficiencies from the H-1B application process.**  
We use technology so you have a better, smoother immigration experience from beginning to end.

<b>WITHOUT TECHNOLOGY</b> 	<b>WITH TECHNOLOGY</b> 
<b>From Lengthy Attorney Interviews to Online Questionnaires</b>	
<p>Lengthy conference calls or traveling miles to your attorney's office for an in-person interview eats hours of your time. Not to mention, being billed hourly or charged consultation fees.</p>	<p><b>Quick, online H-1B questionnaire</b> tailored to government forms that remembers past responses and filters remaining questions appropriately. That's smart.</p>
<b>From Emailing, Faxing and Overnighting Documents to Quick Uploads</b>	
<p>Sending confidential information across unsecure email servers. Or, sending confidential information to shared fax machines. Who knows who actually sees it? Waiting on FedEx and manually managing documents.</p>	<p><b>Fast, secure document uploads</b> with multi-factor authentication — simply drag and drop. Only the right people see the information. Electronic records create efficiencies and improved security.</p>
<b>From Playing Middleman and Waiting Days to Waiting Minutes</b>	
<p>Waiting days — sometimes even weeks — for emails or returned calls from attorneys. Spending time playing middleman and following up for status updates.</p>	<p><b>Attorney response times within one hour on average</b>, through a secure, archived Communication Center. Give your employees access to attorneys for any and all questions. You get a full history of conversations without digging through emails.</p>
<b>From Filing Cabinets to Secure Online Storage</b>	
<p>Piles of papers, stuffed into filing cabinets or dozens of computer folders saved on an unsecure server.</p>	<p><b>Microsoft Azure cloud security network</b> backed up on multiple global sites. Safe from prying eyes and no loss of information.</p>
<b>From Status Calls to Real-Time Updates</b>	
<p>Getting updated on your case statuses days later through billed calls.</p>	<p><b>Clear timeline of next steps and instant notifications</b> sent through email and the platform when any progress is made on your case.</p>
<b>From Spreadsheets to Automated Tracking</b>	
<p>Countless spreadsheets and manual tracking, leading to missed deadlines and expirations.</p>	<p>The platform automatically <b>tracks deadlines, expirations and customized action items</b> — with timely reminders so you never miss an important date.</p>

## Envoy provides these additional features below, which aren't possible with a traditional firm or non-tech immigration provider.

- 

**Ideal Employee Experience**  
With access to attorneys, the application process and their own support team, your H-1B applicants have a rewarding experience.
- 

**Peace of Mind**  
95%+ attorney case approval rate\* shows our dedication to the study and practice of quality visa petition prep.
- 

**RFE Support**  
We respond to a Request for Evidence from the government at no extra charge.
- 

**Flat Rate Pricing**  
Truly flat-rate billing with no hourly costs or consultation fees.
